Have you ever had Chiropractic care.....NO YES

When? _____ Why? _____

Where? _____

Were X-rays taken in the last 12 months? NO YES

Date of last adjustment? _____

CONSENT TO CARE

A patient coming to the doctor gives him/her permission and authority to care for the patient in accordance with appropriate tests, diagnosis and analysis. The clinical procedures performed are usually beneficial and seldom cause any problem. In rare cases underlying physical defects, deformities or pathologies may render the patient susceptible for injury. The doctor, of course, will not provide specific healthcare, if he/she is aware that such care may be contraindicated. It is the responsibility of the patient to make it known or to learn through health care procedures from whatever he/she is suffering from: latent pathological defects, illness or deformities which would otherwise not come to the attention of the physician.

I have read the foregoing and understand it.

Financial Policies

1. Payment for services is expected at the time services are rendered.
2. If the patient has third party insurance, we will bill the insurance for their estimated portion. The patient will be responsible for payment of the deductible, co-payment, and/or co-insurance at the time services are rendered.
3. A patient's insurance will be verified, however verification is not a guarantee of payment. The patient will be responsible for any charges not covered by the insurance.
4. By the third visit, we will prepare a treatment plan that estimates the total charges, including the patient portion, for the course of the patient's treatment.
5. If a charge is determined noncovered by the insurance carrier through the insurance verification, payment is expected at the time service is rendered.
6. We will bill the patient's third party insurance when we are both in-network and out-of-network only if the patient has signed an assignment of benefits form.
7. We will bill the patient's insurance 2 times within a 45 day period. If no response from the insurance, the patient will be responsible for the balance.
8. When the doctors are in-network with the patient's insurance, the patient will be charged their portion of the benefits at the time service is rendered. Any non-covered charge will be billed to the patient if denied by the insurance. Otherwise, the patient will only be responsible for their portion of the charges.
9. If the doctors are out-of-network with the patient's insurance, we will estimate the patient's co-insurance portion, however we expect payment in full at the time of service unless other arrangements have been made.
10. We will bill the patient for any unpaid patient portion after the insurance has made final payment. The patient will receive a minimum of three statements requesting payment. After a final notice is sent, the account will be turned to a bad debt collection agency.
11. The bad debt collection agency will report any unpaid balance to the credit bureau.
12. If we need to hire an attorney to recover any unpaid balances, all legal fees associated with such balance will be your responsibility.
13. A charge of \$25 will be made for the copying of any patient medical records.
14. Patient pre-payments... At the time of pre-payment, a 15% discount will be applied to the Doctor's associated charges. We cannot discount copays with contracted insurance companies. Records will be maintained which indicate how many visits have been applied to the pre-payment plan. This record will be available to the patient at the patient's request.
15. Payment plans: A patient may choose a monthly payment plan. The appropriate amount will be determined. If the patient discontinues care, payment in full is due.

Personal Injury Financial Policies

1. If the patient has medpay with no attorney, we will bill the medpay of the person at fault first, then the patient's medpay. If the medpay has not paid after 120 days of being released from treatment, the balance of the account will be the patient's responsibility
2. If the patient has an attorney, we will bill the attorney at the time the treatment plan is completed and the patient is released from care.
3. Payment for any services, supplies, or equipment utilized by the patient which are not a result of the accident will be expected at the time the service, supply or equipment are rendered/ordered.
4. If a patient receives payment from a medpay carrier or attorney for services rendered at our facility without payment of our bill, the account will be turned to a collection agency within 30 days upon notification of the payout.
5. The State of North Carolina has a 3 year statute of limitations with all auto accidents beginning on the date of accident. If the balance has not been paid by the end of those 3 years, balance is then the patient's responsibility and is due immediately.

Medicare Recipient Financial Policies

1. Medicare does not pay for maintenance visits. Once a patient's treatments have been determined to be maintenance, the patient will be responsible for the entire visit balance, at the approved Medicare rates.
2. Medicare will pay for the chiropractic adjustment only. In addition, they will only pay for an undefined number of treatments. Once Medicare has stopped paying for adjustments, the patient will be billed the for the balance due at the appropriate Medicare rate.

I have read and understand all financial policies with Meehan Chiropractic and Wellness.
